

## Paper Cup Night Light

### Materials:

- 1 tea light/glowstick
- 1 paper/foam cup
- markers/paint
- 1 toothpick or matchstick

1. Decorate paper cup like night sky by coloring the entire outside black/purple. (If you're using paint, use a coat of black/purple then once dry, paint yellow stars on top!)
2. Using your toothpick or matchstick, carefully poke holes all around paper cup (the more holes the better!)
3. Place tea light/glowstick underneath the cup, turn out the lights and enjoy your new night light!

Enjoy! 😊
